Date	Meeting/Event
Feb 6-9, 2023	CONTE 2023 (Conference on Nuclear Training and Education) **Location** Omni Amelia Island Resort **Sponsor** ANS **Contact** Ashley Jiminian **Description** The American Nuclear Society's (ANS) Conference on Nuclear Training and Education (CONTE 2023) provides participants the ability to learn the latest methods, systems, and technologies that are rapidly transforming the nuclear industry. CONTE 2023 will be held at the Omni Amelia Island Resort, in Amelia Island, FL, USA. The theme for the 2023 event is “Maintaining Excellence Today – Building the Nuclear Workforce for Tomorrow.”
Feb 26-Mar 2, 2023	WM2023 Symposia **Location** Phoenix Convention Center **Sponsor** WM Symposia **Description** WM Symposia is the premier non-profit organization dedicated to providing education and information exchange on global radioactive waste management. WMS provides the premier open forum for discussing and seeking safe, environmentally responsible, technically sound, and cost-effective solutions to the management and disposition of radioactive wastes and the decommissioning of nuclear facilities to enhance the transparency and credibility of the global radioactive waste industry. The 2023 event will be held at the Phoenix Convention Center in Phoenix, AZ, USA.

Mar 14-16, 2023

U.S. NRC 35th Regulatory Information Conference

Location

Bethesda North Marriott Hotel, Rockville, MD, USA

Sponsor

U.S. Nuclear Regulatory Commission

Description

The U.S. Nuclear Regulatory Commission's (NRC's) 35th Annual Regulatory Information Conference (RIC) will be held March 14-16, 2023, as a hybrid event. Attendees may participate in person at the Bethesda North Marriott Hotel and Conference Center, 5701 Marinelli Road, Rockville, MD 20852. Online viewing will be available for people who wish to participate virtually. The NRC's largest public meeting brings together over 3,000 participants from more than 40 countries. Attendees represent interested stakeholders from other government agencies, industry, international organizations, and the public. Co-sponsored by the Office of Nuclear Reactor Regulation and the Office of Nuclear Regulatory Research, the RIC offers an open environment in which diverse groups of stakeholders may learn, share, and discuss information on significant and timely nuclear regulatory activities and emergent issues.

Mar 14-17, 2023

Africa Nuclear Business Platform

Location

Kampala, Uganda

Sponsor

Nuclear Business Platform

Contact

Ibrahim Ababou

Description

Africa Nuclear Business Platform (AFNBP) provides a world-class platform to access and gain first-hand insights on the African nuclear market. The African region is one of the fastest growing market globally. The region is hungry for energy and presents massive opportunities. Via our regional office in Morocco, we are deeply engaged with nuclear energy developments in the region. At the heart of what we do, we firmly believe that nuclear energy is pivotal in the fight against climate change and countries must include nuclear energy in discussions to achieve decarbonisation and net zero.

Apr 14-16, 2023

15th China International Exhibition on Nuclear Power Industry

Location

China National Convention Center, Beijing, China

Sponsor

Coastal International

Description

CIENPI covers the whole nuclear power industry chain and gathers all industry leaders to conduct a professional business networking platform and showcase their latest technology and innovation. This biennial occasion has gathered all industry leaders to conduct professional business networking platform and showcase their latest technology & innovation. Through concurrent high-level insightful conferences & workshops held, not only are the world's nuclear power industry revealed & projected, but also stimulated communication & cooperation among industry key players.

Apr 18-20, 2023

World Nuclear Fuel Cycle

Location
The Hague, the Netherlands

Sponsor
NEI & WNA

Contact
Nima Ashkeboussi

Description
World Nuclear Fuel Cycle (WNFC) is a top-level international forum co-organized by the Nuclear Energy Institute and World Nuclear Association. The conference provides companies with cutting-edge information affecting the commercial nuclear fuel cycle, with a focus on enhancing the economic competitiveness of nuclear energy. Leading industry experts will provide information and insights that will help you and your company navigate successfully through the complex and changing fuel marketplace. WNFC also provides many opportunities to network with high-level industry executives. We are pleased to announced WNFC 2023 will take place on 18-20 April, The Hague, the Netherlands.

Apr 23-27, 2023

ICAPP 2023 - International Congress on Advances in Nuclear Power Plants

Location
HICO, Gyeongju, South Korea

Sponsor
ICAPP

Description
The 2023 International Congress on Advances in Nuclear Power Plants in conjunction with 38th Korea Atomic Power Annual Conference (ICAPP 2023 / 38th KAP Conference) features the theme "Nuclear -- Big steps forward to secure a clean future." The five-day event features an opening plenary meeting, multiple technical sessions and panel discussions, an expo, as well as receptions and a banquet to discuss the latest developments facing South Korea's nuclear industry. ICAPP 2023 will be held at the Gyeongju Hwabaek International Convention Center (HICO) in Gyeongju, Gyeongsangbuk-do Province, South Korea.

Apr 25-27, 2023

Used Fuel Management Conference

Location
Las Vegas, Nevada

Sponsor
NEI

Contact
Mark Richter

Description
NEI’s Used Fuel Management Conference highlights the industry’s strategic vision for used fuel, decommissioning, and related topics. The three-day virtual event offers the opportunity for attendees to remain at the forefront of industry technology, regulatory changes, and policy.

Apr 26-27, 2023

The 6th Middle East and Africa Nuclear Industry Congress 2023

Location

Cairo, Egypt

Sponsor

SZ&W Group

Contact

Steven Song

Description

Nuclear energy in Middle East and Africa has created new business growth potential for global stakeholders. Besides ongoing projects in Egypt, Turkey and UAE, many countries in MEA region are moving towards their first nuclear power plant, like Saudi Arabia, Jordan, Kenya, Ghana, South Africa, Nigeria, Uganda and more. SMR technology is also considered as an option and opportunity for the region. The 6th MEA NIC 2023 is the only platform to explore latest MEA nuclear energy potentials, discuss proper reactor options & implementation strategies for MEA NPP projects, update on new build and life extension projects in MEA countries, together with innovative technology demonstration to empowering MEA nuclear energy development.

May 4-5, 2023

SMR & Advanced Reactor Summit 2023

Location

Omni Hotel Atlanta CNN Center, Atlanta, Georgia, USA

Sponsor

Reuters Events

Contact

Katie Silver

Description

We are in the midst of the next-gen nuclear revolution and we are building the community to capitalize on the market opportunities that SMRs and advanced reactors hold to transform nuclear energy. Breaking through barriers to redefine the future of our industry, today's nuclear leaders are conquering regulatory, investment and technological challenges on the journey to commercialization of SMRs and gen IV reactors.

Reuters Events: SMR & Advanced Reactor 2022 guaranteed further acceleration, and equipped attendees with the knowledge and contacts needed to secure market share in a booming industry in order to drive towards nuclear energy replacing fossil fuels in baseload power generation.

Joined by hundreds of senior executives from utilities, reactor developers, investors, regulators, the supply chain and more, our 2022 event propelled strategies forward, unlocked unrestrained innovation and built the network of its 400+ attendees. 2022 is the decisive year in establishing the future for nuclear.

May 8-10, 2023

World Utilities Congress - Nuclear Energy Leadership Forum

Location

Abu Dhabi National Exhibition Center, Abu Dhabi, UAE

Sponsor

TAQA/DMG Events

Contact

Conference Enquiry

Description

Nuclear energy is the world's second-largest source of low-carbon power after hydro, and is key to achieving global net zero objectives. In commercial use since the 1960s, nuclear energy currently provides about 11% of the world's electricity requirements from 440 nuclear reactors in 32 countries. Studies show that, over the past 50 years, the use of nuclear energy has reduced CO2 emissions by over 60 gigatonnes – nearly two years' worth of global energy-related emissions – and will be crucial for the decarbonization of energy systems worldwide. The dedicated Nuclear Energy Leadership Forum will run alongside the exhibition focusing on the role of nuclear energy in achieving net-zero, new and emerging technologies in the nuclear industry, challenges and opportunities and the future of the nuclear energy industry, and more.

May 8-12, 2023

International Symposium on Uranium Raw Material for the Nuclear Fuel Cycle (URAM-2023)

Location

IAEA Headquarters, Vienna, Austria

Sponsor

IAEA

Contact

Nancy Herter

Description

The purpose of the event is to analyse supply–demand scenarios and to present and discuss the latest developments and innovations in uranium geology, exploration, mining, processing and site decommissioning to ensure a sustainable supply of uranium for use as nuclear fuel. The presentations and discussions at URAM-2023 will:
Lead to a better understanding of the adequacy of uranium supply to meet future demand;
Provide information on geological models, new exploration concepts, knowledge and technologies that may potentially result in the discovery and development of new uranium resources;
Describe new mining and processing technologies that have the potential to support a more efficient and sustainable development of uranium and related resources; and
Consider the environmental compatibility of uranium production and the overall effectiveness of progressive waste management, decommissioning and remediation of production facilities.

May 15-17, 2023

Nuclear Energy Assembly

Location

Grand Hyatt Washington, D.C.

Sponsor

NEI

Contact

Kelly Bielen

Description

NEI's Nuclear Energy Assembly will bring together leaders throughout the nuclear, energy, and climate communities. The nuclear industry's leading conference is an opportunity for networking with thought leaders, building business connections, gaining inspiration, and learning about recent successes and the promises of tomorrow. Held in conjunction with the North American Young Generation in Nuclear's professional development conference and the Nuclear Suppliers Expo, NEA is the gathering place for the best and brightest leaders from all areas of the nuclear energy industry and related fields.

Jun 4-6, 2023

WNFM 49th Annual Meeting

Location
Ljubljana, Slovenia

Sponsor
World Nuclear Fuel Market

Contact
Rachel Little

Description
The World Nuclear Fuel Market, an association of about 76 companies, representing around 21 countries, is dedicated to facilitating trade of nuclear materials and increasing the availability of accurate, timely and useful price information to the industry. WNFM organizes and hosts a well-attended annual meeting that provides a forum for the discussion of issues of interest to its members.

Jun 7-8, 2023

Global Energy Transition 2023

Location
New York, USA

Sponsor
Reuters Events

Description
Amidst complex geopolitical tensions, evolving supply chains and catalysed technological development, the global energy transition has reached a critical inflection point. Against this uncertainty, are we realizing the commitments we have set ourselves?

Join 750+ executive decision-makers to re-invent the energy transition at Reuters Events: Global Energy Transition 2023 (07 – 08 June, New York). Together, we will unite energy, industrial, and government world leaders to redefine intersectoral net-zero discourse and confront the most business-critical challenges that our industry is facing, together.

Jun 11-14, 2023

UxC Nuclear Fuel Training Seminar - Vienna

Location
Hilton Vienna Plaza, Vienna, Austria

Sponsor
UxC, LLC

Contact
Eric Webb

Description
Following over a decade of successful seminars focused on utility nuclear fuel procurement, UxC created its new Nuclear Fuel Training Seminar in 2016. All participants in the nuclear fuel markets require up-to-date knowledge and unbiased insights in order to formulate effective strategies either for procurement, sales efforts, investment activities, or other related objectives. This seminar is designed to assist you in achieving these goals by providing an advanced understanding of factors affecting nuclear fuel demand, market price formation, supply source availability, supplier motivations, and utility contracting practices.

Jun 21-22, 2023

Nuclear Power Plants V. Expo & IX. Summit

Location

Istanbul Lutfi Kırdar Convention Exhibition Center, Istanbul, Turkey

Sponsor

NIATR

Contact

Meliha Taçgin

Description

The Nuclear Power Plants Expo & Summit (NPPES) is the best way to keep up to date with the latest developments in Turkey's booming nuclear industry. The NPPES provides speakers and delegates with the opportunity to hear the latest about nuclear power plant projects, plans, products, and solutions while gaining extensive networking time with nuclear industry peers, get the chance to approach senior-level executives from a large number of local and international companies and ensure you stay at the nuclear industry. This year's NPPES meeting takes place at the Istanbul Lutfi Kırdar Convention Exhibition Center in Istanbul, Turkey from June 21-22, 2023.

Jul 23-26, 2023

U.S. Women in Nuclear

Location

Scottsdale, AZ

Sponsor

NEI

Contact

Kaitlin Rekola

Description

This event will include dialogue on diversity, equity, and inclusion, space applications from government and private sector speakers, and mentorships that yield positive career growth. The U.S. Women in Nuclear national conference is ideal for individuals working in all aspects of nuclear energy, science, and technology in the United States. The conference provides perspectives from national authorities on key issues and professional development opportunities to grow your career.

Sep 6-8, 2023

World Nuclear Association Symposium 2023

Location

Park Plaza Westminster Bridge, London, UK

Sponsor

World Nuclear Association

Contact

Ana Rodriguez

Description

On 6-8 September 2023, top nuclear industry leaders, experts and executives will come together in London, UK to share information and experience that will elevate nuclear energy as a key contributor in the transition to a clean and sustainable world. Further details will be available shortly. This year's Gala Dinner will be held on Thursday 7 September at an iconic London venue (full details to be announced shortly). Join fellow delegates for this cultural and networking experience.

Sep 11-12, 2023

8th Central & Eastern Europe Nuclear Industry Congress 2023

Location
Prague, Czech Republic

Sponsor
SZ&W Group

Contact
Christine Guan

Description
The 8th Central & Eastern Europe Nuclear Industry Congress 2023 will take place in Prague, Czech Republic to bring together companies involved in all areas of the nuclear power plant life cycle to address latest CEE nuclear market opportunities, update on new build, life extension & decommissioning projects in CEE countries, share good practices for ongoing and planned projects, together with innovative technology demonstration platform to accelerate business cooperation for CEE market.

Sep 11-13, 2023

Nuclear Week in Parliament 2023

Location
Various locations across the parliamentary estate

Sponsor
NIA

Contact
Jon Woodburn

Description
The Nuclear Industry Association will host the 3rd Nuclear Week in Parliament (NWiP) between the 11th and 13th of September 2023. In January 2023, the rescheduled week saw hundreds of Parliamentarians and industry representatives engage in various events. Back in its annual September slot, this year's NWiP will be packed with multiple events and receptions, plus opportunities for NIA members to hold their complementary meetings. The week will focus on engaging with Parliamentarians on various topics, including new build, Advanced Nuclear Technologies, and the fuel cycle. This will build on our Summer Conference, due to be held in the Concorde Conference Centre in Manchester on Wednesday, 14 June 2023.

Sep 11-14, 2023

International Conference on Nuclear Energy for New Europe (NENE 2023)

Location
Grand Hotel Bernardin, Portorož, Slovenia

Sponsor
Nuclear Society of Slovenia

Contact
NA

Description
The Nuclear Society of Slovenia's general conference is an international annual meeting of the nuclear industry and professionals dealing with different aspects of nuclear energy from all around Europe and worldwide. The primary objective of the meeting is to foster international cooperation amongst professionals active in nuclear research and educational institutions, nuclear vendors, utilities, and regulatory bodies. This year the focus of the 32nd conference is "the surest path to a brighter future". Nuclear energy is the technology that can fill the gap in the global sustainable low-carbon clean energy supply.

Sep 25-29, 2023

67th IAEA General Conference

Location

IAEA Headquarters, Vienna, Austria

Sponsor

IAEA

Contact

N/A

Description

The General Conference consisting of representatives of the IAEA Member States meets in a regular annual session, usually in September, to consider and approve the IAEA's budget and to decide on other issues raised by the Board of Governors, the Director General and Member States. Representatives of IAEA Member States and invited non-Member States and organizations may register for the General Conference in accordance with such rules as the General Conference has approved. The General Conference elects a President and members of the General Committee at the beginning of each annual session. They hold office for the duration of the session. In conjunction with the General Conference, the IAEA regularly organizes a Scientific Forum on topics related to nuclear technology and science.

Oct 3, 2023

SMR Business Day 2023

Location

Aalto University, Espoo, Finland

Sponsor

FinNuclear

Contact

Roosa Ahola

Description

FinNuclear will hold on October 3, 2023, a one-day conference in Espoo, Finland for current and future players in the small modular reactor industry known as the SMR Business Day. The event offers useful information for businesses interested to be involved in SMR projects and Finnish municipalities considering SMRs to be part of their energy production. The event consists of seminars, 1-to-1 business meetings, and a small exhibition.

Oct 19-20, 2023

Asia Pacific Nuclear Energy 2023

Location

Singapore

Sponsor

Strategic Communications

Contact

Christina Logan

Description

StratComs Events in collaboration with Centre for Strategic Energy & Resources is pleased to bring you its first nuclear energy summit focused on developing nuclear energy in the Asia Pacific region particularly the ASEAN countries who are currently looking at nuclear energy as a possible addition to their countries energy mix in light of growing energy demands. Land-scarce Singapore is envisioning a future in which nuclear energy will make up about 10 per cent of its energy mix by 2050. As a small island nation with a considerable hunger for energy, Singapore needs to think big to reach its goal of carbon neutrality.

Oct 22-24, 2023

NEI International Uranium Fuel Seminar

Location

Le Meridien Charlotte Hotel, Charlotte, North Carolina

Sponsor

NEI

Description

Explore the issues impacting the nuclear fuel cycle with industry leaders during the International Uranium Fuel Seminar. Join your colleagues on Oct. 23–24 at the Le Meridien Charlotte for two half-day sessions on fuel policy, market, and trade issues with plenty of networking opportunities. In addition to the half-day sessions, two optional technical tours will be available as well.

Oct 23-25, 2023

Technological Innovations in Nuclear Civil Engineering

Location

ENS Paris-Saclay

Sponsor

Sfen

Description

Sfen's Technological Innovations in Nuclear Civil Engineering 2023 (TINCE'23) conference will be hosted by the prestigious Paris-Saclay University in Paris, France. In the current context of climate change and the global energy crisis, the place of nuclear energy and its role in the future has taken a central position that has been continuously underlined by the IEA and the IPCC and that is clearly of the highest importance today. Currently, there are more than 50 nuclear projects underway around the world and more than 35 planned projects that are considered to be firm. In that context, Sfen decided to place the TINCE'23 edition under the auspices of the new build challenge that is in front of us. TINCE'23 is also special as Sfen will celebrate the 10th anniversary of the conference.

Nov 5-9, 2023

ANS Winter Meeting & Technology Expo

Location

Washington Hilton, Washington, D.C.

Sponsor

ANS

Description

The 2023 ANS Winter Meeting promises to be one of the year’s most exciting and informative educational and networking events for attendees from every facet of nuclear science and technology. If you’re interested in expanding your knowledge, sharing ideas, and networking, don’t miss this opportunity. Please join us at the 2023 ANS Winter Meeting. In addition, the Technology Expo will give attendees a glimpse into the applications of new technology through three days of exhibits and special events. The Expo will also give attendees many opportunities to network with each other and establish new professional relationships while having food and fun in a friendly and informal setting.

Nov 14-16, 2023

Enlit Asia

Location

ICE, BSD City, Jakarta, Indonesia

Sponsor

Clarion Events

Description

Enlit Asia is an annual conference and exhibition that unifies two major events in the power and energy sector - POWERGEN Asia and Asian Utility Week. The event is a platform for leading industry providers to showcase innovative solutions, services, and products in line with the Asian strategy to transition to a low-carbon energy supply. Through its conference summit, Enlit Asia also delivers expert knowledge and foresight from the region's power and energy thought leaders on key developments, policies, and innovations that are driving the energy transition. The conference brings together the entire value chain of both power and utility producers and suppliers, covering content and exhibits from source to generation and from grid to consumer.

Nov 28-30, 2023

Enlit Europe

Location

Paris Expo Porte de Versailles

Sponsor

Clarion Events

Description

Enlit Europe will welcome 15,000 energy professionals in Paris, to visit 700 exhibitors, hear from 500 speakers on the latest industry developments, get to know start-ups, scale-ups and entrepreneurs working on solutions helping to accelerate the energy transition, meet with future energy leaders, and connect with EU-funded projects that are the first line of defense against climate change.

Nov 28-30, 2023

WNE 2023 - 4th World Nuclear Exhibition

Location

Parc des Expositions, Paris, France

Sponsor

GIFEN

Description

WNE brings together more than 600 exhibiting companies, 40% of which come from abroad, working in nearly 50 activities covering the entire value chain of the sector. This unique offer makes it the benchmark civil nuclear event. WNE presents the leading French and international companies in the sector, but also many young innovative companies. WNE is a GIFEN event.

Dec 4-5, 2023

8th European Nuclear Industry Congress 2023

Location

London, UK

Sponsor

SZ&W Group

Description

The 8th European Nuclear Industry Congress 2023 (ENIC 2023) aims to bring together companies involved in all areas of the nuclear power plant life cycle to address latest European nuclear market opportunities, update on new build, life extension & decommissioning projects in the whole Europe, share good practices for ongoing and planned projects, together with innovative technology demonstration platform to accelerate business cooperation for European market.

Dec 10-14, 2023	MiNES 2023 - Materials in Nuclear Energy Systems
	Location
	New Orleans Marriot, New Orleans, Louisiana, USA
	Sponsor
	ANS
	Description
	ANS will hold the third installment of Materials in Nuclear Energy Systems, MiNES, to focus on research in the fission reactor materials community. The MiNES conference series grew out of two biannual symposia: Microstructure Processes in Irradiated Materials (MPIM), held at the TMS Annual Meeting & Exhibition, and Nuclear Fuel and Structural Materials (NFSM), held at the ANS Annual Meeting. The conference takes place bi-annually, with TMS and ANS alternating sponsorship.
