Feb 20, 2018 SMR 2018 -- Addressing Technical Lifecycle Challenges
Location

AMRC Knowledge Transfer Centre, Advanced Manufacturing Park, Rotherham, UK

Sponsor

The Nuclear Institute

Description

The SMR 2018 conference will focus on exploring the technical considerations within the life-cycle of an SMR power station. Sessions will cover UK licensing and permitting considerations, innovation in manufacturing and construction techniques, and hearing the vision of a potential operational facility host. Delegates will gain insights from global technology providers on the distinctive technical benefits of their reactor design, the fuel cycle route and likely decommissioning and waste generated for consignment. By understanding the challenges, the UK nuclear industry can continue to innovate and bring solutions forward, while developing our skills base to contribute towards the successful delivery of the UK Industrial Strategy.

Marie-Danielle Davis

Description

Governments and people are scrambling to figure out how we can swiftly, efficiently and with certainty de-carbonize our societies and get the clean and affordable energy we need for sustainable economic growth in the decades ahead. Today's nuclear technology has proven the solution. Tomorrow's advanced nuclear technology will do even more to provide the power we need and want – not just to large urban centers, but also to remote, off-grid communities and those living in energy poverty. This is what CNA2018 is all about. This is Canada's Nuclear Advantage. This is the Next Generation. Come and be a part of it!

Mar 6-7, 2018 **International Nuclear Power Plants Summit**
Location

Pullman Istanbul Convention Center

Sponsor

NIATR

Description

The International Nuclear Power Plants Summit (INPPS) will be held at the Pullman Istanbul Convention Center in Istanbul, Turkey. The conference focuses on the latest developments in Turkey's rapidly growing nuclear power industry, providing the latest updates on nuclear projects, plans, products, and solutions.

Location

Bariloche Eventos y Convenciones (BEC)

Sponsor

International Youth Nuclear Congress

Description

The 26th WiN Global Annual Conference will be jointly organized with the International Youth Nuclear Congress (IYNC) 2018, from 11 to 17 March 2018, in Bariloche, Argentina. The conference will provide a forum for young professionals and women in the nuclear field to discuss and collaborate on knowledge transfer, nuclear science and technology research and implementation, professional development, and communication. In particular, the event will bring together young professionals that are looking to further their careers and senior leaders that are willing to share their knowledge and expertise with younger generations. In 2016 IYNC and WiN signed a Memorandum of Understanding to foster their collaboration and joint activities on knowledge transfer, education, and communication on peaceful use of nuclear science and technologies.

Ashley Jiminian

Description

The American Nuclear Society (ANS) is pleased to host the 14th Pacific Basin Nuclear Conference (PBNC) and Technology Exhibition under the auspices of the Pacific Nuclear Council. The conference will be held September 30-October 4, 2018 at the Hyatt Regency in San Francisco, CA. This International meeting is a broad-based meeting focused on areas of nuclear energy, engineering and science, and policy issues that accompany nuclear energy programs throughout the Pacific Rim. The meeting is sponsored by the Pacific Nuclear Council and ANS. The Pacific Basin Nuclear Conference (PBNC) was initiated originally as regional cooperative fora to advance peaceful uses of nuclear energy in the Pacific Basin region. The first meeting was held in 1976 in Honolulu, Hawaii, USA. They have been held about every two years, under the joint sponsorship of the Pacific Nuclear Council (PNC) and a sponsoring PNC Member Society. The conferences have played a vital role in providing a forum for discussion and information relating to both research and development and to the implementation of nuclear energy technology in the Pacific Basin.
