

SpentFUEL & StoreFUEL

Bringing UxC's Experience to Back-end Market Coverage

Since 2007, UxC, LLC (UxC) has published the *SpentFUEL* industry newsletter and the *StoreFUEL* monthly report, and therefore, bringing its expertise in the front-end market to the back-end. Both publications cover major fuel cycle and back-end-related conferences in detail. In addition, UxC can advise clients in issues related to the back end of the fuel cycle, including profiles of utility spent fuel storage facilities and plans, country profiles, vendor profiles, etc. Both subscriptions also include the daily UxC Headline News distributed by email.

The Latest Developments in Spent Fuel Management and Transportation

SpentFUEL is the only industry newsletter devoted solely to spent fuel management and transportation issues. Published every Friday, 50 times a year, *SpentFUEL* covers the latest market and political developments to bring the reader up-to-date on the numerous activities and issues facing utilities and back-end suppliers. Topics include: the U.S. geologic disposal program, extended storage issues, at-reactor dry cask storage plans and licensing activities, contract awards, interim storage proposals, legislation and budget issues affecting the back-end, utility lawsuits to recover spent fuel costs, utility spent fuel pool information, surplus plutonium disposition, DOE spent fuel, and transportation.

The publication also covers developments in waste management policies and programs around the globe, including short- and long-term storage plans, developments related to national or regional permanent disposal facilities, reprocessing, and mixed-oxide fuel use. [Click here to view a flier.](#)

The cost of a one year subscription starts at **US\$2,750.00**. *SpentFUEL* presents information gathered through the activities of the publisher. Although great effort is dedicated to show accuracy, data are sometimes obtained from sources believed by UxC to be reasonably accurate; therefore, no warranties, express or implied are made, nor any liabilities assumed by UxC for the accuracy, effect or usefulness of any data contained in *SpentFUEL*.

Special Introductory Offer

The standard individual subscription to the *SpentFUEL* covers 52 weeks. This special offer, available only to new subscribers, is for a **full-year subscription** (50 weeks) with a **15% discount**. Therefore the introductory rate would be **US\$2,350.00**. Renewals after this trial period will be at the standard rate for a 52-week period.

To receive this new subscriber rate, simply mention the special introductory offer when you place your order over the phone, or indicate the Special Trial Offer on the **online order form**.

Dry Storage in the U.S.

StoreFUEL was created to assist utility fuel managers, cask designers, fabricators, and other related companies in staying current on the U.S. Nuclear Regulatory Commission's (NRC) certification process for spent fuel cask technology. *StoreFUEL*, published the first week of every month, also includes U.S. cask vendor licensing activities, a brief summary and detailed tables of all active and planned dry storage programs in the U.S., and updates on shutdown reactors and other decommissioning activities in the U.S. [Click here to view a flier.](#)

StoreFUEL and Decommissioning Report is published the first week of every month, 12 times a year, by UxC, LLC (UxC). The cost of a one year subscription starts at **US\$2,250.00**. *StoreFUEL and Decommissioning Report* presents information gathered through the activities of the publisher. Although great effort is dedicated to show accuracy, data are sometimes obtained from sources believed by UxC to be reasonably accurate; therefore, no warranties, express or implied are made, nor any liabilities assumed by UxC for the accuracy, effect or usefulness of any data contained in *StoreFUEL and Decommissioning Report*.
